This tree is only a very small section of our second largest tree and unites many of our members as 'extended family.' They meet at Filby Reunions and come from all over the world.

Whilst every precaution has been taken to ensure accuracy of content, genealogy is not a precise art depending on old records etc., some of which are almost illegible. Members have given information to the Association over the years some of which still has to be verified by our team of researchers, which is why we update out trees on a regular basis.
